HOOK — Milward.

3.00 (No 10-11) or size needed to give correct tension.

ACCESSORIES — Milward Knitters Needle to sew seams; Lengths of Ribbon for **Dress, Coat, Jacket, Bonnet, Bootees and Mittens**; 3 Maxart Buttons for **Dress**, 4 for **Singlet**; Length of Round Elastic for **Pants**.

ABBREVIATIONS — See page 17. "Shell" = (1 tr, 1 ch) 5 times and 1 tr all in same st; "Picot" = 3 ch, sl st back into first of these ch.

TENSION — 24½ tr (and 13¾ rows) to 10 cm (approx 4 ins) over tr fabric.

Why you **should** crochet a tension square.

Loose Tension will cause the garments to stretch, drop and rub.

Tight Tension will make the garments too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garments will look like our photo.

Using 3.00 (No 10-11) Hook, make 38 ch loosely.

1st row — Miss 3 ch, 1 tr in each ch to end ... 36 tr, counting turning ch as 1 tr.

2nd row — (1 dc, 1 ch) in first tr, 1 tr in each tr to end, 1 tr in top of turning ch.

Rep 2nd row 18 times. Fasten off.

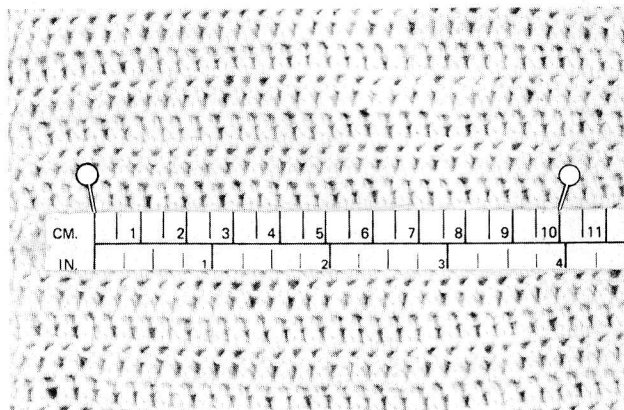

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo. Count the number of tr between the pins.

You should have 24½ tr.

Less tr means loose tension — try a size smaller hook.

More tr means tight tension — try a size larger hook.

When you have achieved the **correct tension**, use the same hook to crochet your garments (you may unravel your tension square and use the yarn in your garments).

NEEDLES — Milward or Patons Beehive.

1 pair each 3.25 (No 10) and 2.75 (No 12) or sizes needed to give correct tension.

ACCESSORIES — 3 Stitch Holders for **Dress**, 2 for **Petticoat** and **Singlet**; Milward Knitters Needle to sew seams; 3.00 (No 10-11) Milward Crochet Hook for **Petticoat** and **Singlet**; 3 Maxart Buttons for **Dress**, 4 each for **Petticoat** and **Singlet**; Lengths of Ribbon for **Coat**, **Jacket**, **Bonnet**, **Bootees** and **Mittens**; Length of Round Elastic for **Pants**.

ABBREVIATIONS — See page 17.

TENSION — 31 sts to 10 cm (approx 4 ins) in width over stocking st.

Why you **should** knit a tension square.

Loose Tension will cause the garments to stretch, drop and rub.

Tight Tension will make the garments too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garments will look like our photo.

Using 3.25 (No 10) Needles, cast on 46 sts.

Work 64 rows stocking st. Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo. Count the number of sts between the pins.

You should have 31 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size larger.

When you have achieved the **correct tension**, use the same needles to knit your garments (you may unravel your tension square and use the yarn in your garments). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

ABBREVIATIONS — See page 17. "Picot" = 3 ch, sl st back into first of these ch.

TENSION — 31 sts to 10 cm (approx 4 ins) in width over stocking st.

Why you **should** knit a tension square.

Loose Tension will cause the garments to stretch, drop and rub.

Tight Tension will make the garments too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garments will look like our photo.

Using 3.25 (No 10) Needles, cast on 46 sts.

Work 64 rows stocking st. Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo on page 7. Count the number of sts between the pins. You should have 31 sts.

You should have 31 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size larger.

When you have achieved the **correct tension**, use the same needles to knit your garments (you may unravel your tension square and use the yarn in your garments). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

Flat Seam.

This method is sometimes used for knitted garments but more often for crochet garments. A flat seam may be worked from either the right or the wrong side of the work. Place the 2 pieces of fabric evenly together and sew stitch by stitch, always bringing the needle up from underneath to top through the centre of the stitch, then in same manner through corresponding stitch on second piece of fabric.

Note—Diagram shows knitted fabric, but method is the same for knitting or crochet. Always keep work elastic—there should be as much stretch in your seam as there is in the rest of your garment.

Back-Stitch Seam - This is the method most commonly used for joining knitted garments. The seam should be sewn one full stitch in from the end of each row so that all seams will be even. One stitch should be worked over every row. Darn in all ends of yarn **after** sewing seams.
